

What Happens to the food you eat?

During digestion certain kinds of food containing proteins, such as meat, egg white, milk casein, wheat gluten, etc., are split into many different substances.

Some of these the body uses to rebuild damaged or dead tissues; some, however, are not only useless and harmful but in some cases actually poisonous. Regular, thorough bowel evacuation gets rid of the latter.

Constipation permits stagnation and absorption of these poisons into the blood, with injury to the whole body.

Taking castor oil, pills, salts, mineral waters, etc., in order to force the bowels to move does not—cannot cure constipation—but makes it worse.

On the other hand Nujol overcomes constipation and brings about the habit of easy, thorough bowel evacuation at regular intervals, because Nujol is not a drug, does not act like any drug.

Nujol brings about a return to Nature's methods of supplying necessary lubrication of the bowel contents, by facilitating intestinal muscular action, by absorbing poisonous matter, and thus securing necessary cleansing of the intestinal canal and protection of the defensive properties of the blood itself.

Nujol has no deleterious after effects, produces no bad habits, makes the bowels regular as clockwork.

Nujol is efficient at any age—under any conditions—is satisfactory and safe.

How and Why Nujol overcomes constipation is described in an interesting and authoritative booklet, "Thirty Feet of Danger" (free on request. Send for it and get a bottle of Nujol from your druggist today.

DAMAGED FRANCE

Not to Rebuild It, But to Give People Start to Make Living.

Under the auspices of the Chamber of Commerce and the Nineteenth Century club, an active campaign is in progress to raise a fund of \$15,000 by voluntary subscriptions in Memphis for the American Committee on Devastated France. The first step in the campaign was the organization by Comte Jarvis, traveling representative of the National committee, with the assistance of Miss Augusta Semmes, and Mrs. Arthur S. Buchanan, president of the Nineteenth Century club, of a strong, enthusiastic team of women, representing 17 of the local women's clubs and auxiliaries.

An enthusiastic meeting of all women on these teams was held at the Nineteenth Century club Monday. The campaign for raising the fund was started by the women of the Memphis unit, National Council of Defense, which contributed \$200, and by Mrs. George Gunther, who made stirring appeals at her regular French lectures at the Comstock library, which brought forth immediate response in the form of the sum of \$125 for devastated France.

Comte Jarvis made a splendid talk on the subject of what the fund is really for. It is not, he said, as most people believe, for the purpose of rebuilding France, but to supply the French people in the devastated regions with the absolute necessities of life, and to keep them from starving to death, as they have no implements, no materials, and no possible way to raise food at present.

"You cannot at present rebuild France," he said, "but you can head the cry of her people who are calling to you to give them a chance for life—a chance to raise food to keep from starving, so that in time they may rebuild the land for which they have sacrificed all."

Miss Semmes is confident that the people of Memphis will respond now, as always in the past, to the call to support a worthy cause. The teams will conduct a canvass Thursday, Friday and Saturday for the required sum. There are about 100 women on the teams. They will have the co-operation of teams aggregating some 200 men while on the streets Wednesday afternoon at a general meeting of the membership of the Chamber of Commerce called at 3:30 on the sixth floor for that purpose.

Fifteen hundred letters appealing for contributions to assist the destitute French people in the invaded regions have been sent to influential persons throughout the city. These letters are signed by Marion Evans, acting president of the Chamber of Commerce. They are expected to prepare the way for the canvass during the latter days of the week and the teams of men and women will call on the persons to whom the letters were addressed.

L. C. Humes, vice-president of the Guaranty Bank and Trust company, has been appointed treasurer for the collections and all checks must be made out to him.

33 BOLSHEVIKI PUT TO DEATH BY POLES

WARSAW, April 9.—(By the Associated Press).—Thirty-three Bolsheviki were executed at Pinsk, on the eastern frontier of Poland, Saturday. They were charged with plotting an uprising for the purpose of overthrowing the weakened garrison and seizing the city. An allied commission, composed of Americans, British and French, is conducting the fullest inquiry and may send a special mission to Pinsk from Warsaw for that purpose. Some reports which have reached Warsaw place the number of executions as high as 250, but Col. Francis R. Pronczak, health commissioner of Buffalo, who was in Pinsk at the time for the American Red Cross fixes the number at 33.

300,000 HOME EVERY MONTH IS NEW PLAN

WASHINGTON, April 9.—Approximately 120 ships now are engaged in returning American troops from overseas and additional vessels are being fitted out for this service with a view to increasing the homeward movement to 300,000 or more men a month. It was said today that at this rate the last of the expeditionary forces might be out of Europe by late summer, but that this would depend largely upon developments at the peace conference.

Of the ships now in the transport service more than 100 are vessels commandeered or built during the war, for use by the troops overseas and for the civilian populations of Europe. These cargo vessels also are used to bring American troops from overseas and for the civilian populations of Europe. These cargo vessels also are used to bring American troops from overseas and for the civilian populations of Europe.

LIEUT. LOWREY TO TEACH IN GULFPORT ACADEMY

BLUE MOUNTAIN, Miss April 9 (Sp.)—Lieut. J. J. Lowrey, United States field artillery, who recently received an honorable discharge from the army, has accepted a place at the faculty of the Gulf Coast Military academy at Gulfport, Miss. Lieut. U. S. ADMIRAL'S SHIP RESCUES SAILORS

NEW YORK, April 9.—Rear Admiral William B. Caperton, commander-in-chief of the Pacific fleet, arrived today aboard the United States cruiser Pittsburgh, his flagship, which was flying a 500-foot homeward bound pennant.

Pittsburgh has been cruising lately in South American waters. She brought to port Capt. Barbridge and his wife and 11 members of the crew of the 1,218-ton American schooner Chaska, which caught fire at sea and the coast of Brazil on March 26. The Pittsburgh, in response to a call from the Brazilian authorities, put in at Trinidad to take on the schooner's crew which had reached the island in an open boat after thrilling experiences.
